PROFESSIONAL SUMMARY

Ambitious and detail-oriented Computer Science Engineering graduate (B.E.) with a strong foundation in full-stack development, data structures and algorithms, machine learning, and artificial intelligence. Built web applications and predictive models through academic and independent projects. Proficient in Java, C++, SQL, and front-end technologies, with project experience in machine learning, predictive modeling, and EEG signal analysis. Interested in Natural Language Processing (NLP) and Generative AI. Passionate about designing efficient, scalable, user-centric software solutions; committed to continuous learning and contributing effectively in collaborative, agile environments. Currently open to new job opportunities.

TECHNICAL SKILLS

Programming: Java, C++, C, Python

Web Development: Full-stack development fundamentals, HTML, CSS, JavaScript

Databases: SQL, MySQL

Machine Learning and Data: Machine learning, deep learning, data preprocessing, feature engineering, exploratory data analysis, classification, model evaluation, Logistic Regression, Random Forest, SVM

Libraries and Tools: TensorFlow, Keras, scikit-learn, pandas, NumPy, matplotlib, seaborn, Git

AI Areas of Interest: Natural Language Processing (NLP), Generative AI

PROJECTS

Credit Card Default Prediction

- Developed a predictive modeling project using data preprocessing, feature engineering, and exploratory data analysis.
- Compared Logistic Regression, Random Forest, and Support Vector Machine (SVM) models; reported 85% accuracy.
- Technologies: Python, scikit-learn, pandas, NumPy, matplotlib, seaborn.
- Repository: https://github.com/ksowmyasri10/Default-Of-Credit

EEG Emotion Recognition for Parkinson's Research

- Explored deep-learning-based emotion classification using EEG signals associated with Parkinson's disease and Delta, Theta, Alpha, and Beta frequency bands.
- Technologies: Python, TensorFlow, Keras, pandas, NumPy, scikit-learn. Educational research project; not a clinically validated diagnostic tool.
- Repository: https://github.com/ksowmyasri10/Parkinson_disease_prediction

E-Learning Management System

- Built a learning platform concept with student, instructor, and administrator roles, including courses, assignments, quizzes, and progress tracking.
- Technologies: HTML, CSS, JavaScript, MySQL, Git.
- Repository: https://github.com/ksowmyasri10/E-LEARNING-MANAGEMENT-SYSTEM

Marine Reservation System

- Developed a Java reservation application supporting bookings, cancellations, and administrative management.
- Technologies: Core Java, object-oriented programming (OOP), File I/O.

PROFESSIONAL EXPERIENCE

QA Intern

PRO CODE WORK IT SOLUTIONS PRIVATE LIMITED | 27 July 2026 - 28 September 2026

- Internship certificate recognized strong analytical ability, self-motivation, sincerity, willingness to learn new technologies, and satisfactory conduct.

EDUCATION

B.E., Computer Science and Engineering

Sathyabama Institute of Science and Technology, Chennai | 2022 - 2026 | CGPA: 8.11

Intermediate - MPC Stream

Sasi Junior College | 2020 - 2022 | Percentage: 69.3%

Secondary School Certificate (SSC)

Sasi High School | 2019 - 2020 | CGPA: 10

CERTIFICATIONS AND TRAINING

- Deloitte Cyber Job Simulation
- Cognibot Machine Learning
- Algoxfusion Full Stack Development (MEAN)
- Oracle Cloud Infrastructure
- Oracle Digital 101
- MathWorks OOP
- MATLAB Onramp
- MATLAB Fundamentals
- Cisco Networking Essentials

AWARDS AND RECOGNITION

- Luminary Award for academic performance and project innovation.

LANGUAGES

English, Telugu, Tamil
